SECION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Trade name: sec-Butyl acetate/ 2-Butyl acetate
CAS No.: 105-46-4
EC No.: 203-300-1

1.2 Relevant identified uses of the substance or mixture and uses advised against
Relevant identified uses: - Used as a solvent for manufacturing lacquer of nitrocellulose, acrylic and polyurethane; Used as a volatility solvent for printing inks; Used as an extraction dose for medical industry; Used as a component of solvents in azeotropism; Used as a quick drying ingredient for sensitive material.
Sector of use: SU 3industrial uses
Environmental release category: Manufacture (ERC1) and formulations (ERC2)
Uses identified against: none identified

1.3 Details of the supplier of the safety data sheet:
Manufacturer/Supplier:
Prasol Chemicals Ltd.,
Prasol House, Plot No.A-17/2/3,
T.T.C. Indl. Area, Khairne M.I.D.C.,
Navi Mumbai - 400 710
Maharashtra, India.
Tel: +91-22-27782555
Fax: +91-22-27782430

Further information obtainable from:
Mr. Dhaval Parikh
e-mail:sales@prasolchem.com; inquiry@prasolchem.com

Information in case of emergency:
Product safety department Tel: +91-22-27782555; Fax:+91-22-27782430
Other Comments (e.g. language(s) of the phone service): English

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
2.1.1 Classification according to Regulation (EC) No 1272/2008 (CLP)

GHS02
Flammable liquid 2 H225 highly flammable liquid and vapour
EUH066 Repeated exposure may cause skin dryness or cracking

2.1.2 Classification according to Directive 67/548/EEC or Directive 1999/45/EC
R11 Highly flammable F
R66 Repeated exposure may cause skin dryness or cracking

Information concerning particular hazards for human and environment: Not applicable

2.2 Label elements
Labeling according to Regulation (EC) No 1272/2008 (CLP)
Hazard pictograms

GHS02
Signal word Danger
Hazard-determining components of labeling: Void
Hazard statements
H319 Causes serious eye irritation
H226 Flammable liquid 3
H335 Causes respiratory tract irritation STOT SE 3

Precautionary statements
P280 Wear protective gloves/protective clothing/eye protection/face protection.
Product: sec-Butyl acetate

P264 Wash thoroughly after handling
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

2.3 Other hazards Results of PBT and vPvB assessment: Not applicable

SECTION 3: Composition/information on ingredients

Chemical characterization:

Additional information:

Molecular Formula: C₆H₁₂O₂
Molecular Weight: 116.16g/mol

SECTION 4: First aid measures

4.1 General information: Consult a physician. Show this safety data sheet to the doctor in attendance.

After inhalation: If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

After skin contact: Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician.

After eye contact: Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

After swallowing: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

4.2 Most important symptoms and effects, both acute and delayed
The following symptoms may occur:
To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

4.3 Indication of any immediate medical attention and special treatment needed
No further relevant information available.

Information for doctor: Treat symptomatically and supportively.

SECTION 5: Firefighting measures

5.1 Suitable extinguishing agents:
For small (incipient) fires, use media such as "alcohol" foam, dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use very large quantities (flooding) of water applied as a mist or spray; solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water.

5.2 Special hazards arising from the substance or mixture

5.3 Advice for firefighters: Wear self-contained breathing apparatus for firefighting if necessary.
Additional information Use water spray to cool unopened containers

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Wear respiratory protection. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

6.2 Environmental precautions: Dilute with plenty of water. Do not allow to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up:
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations
6.4 Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment
See Section 13 for disposal information

SECTION 7: Handling and storage

7.1 Precautions for safe handling:
Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Take measures to prevent the buildup of electrostatic charge.

Information about fire - and explosion protection: Keep ignition sources away. Do not smoke.

7.2 Conditions for safe storage, including any incompatibilities:
Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Information about storage in one common storage facility: Store away from incompatible materials.

Further information about storage conditions: Store away from moisture. Store in cool and dry place.

7.3 Specific end use(s) No further relevant information available

SECTION 8: Exposure controls/personal protection

8.1 Control parameters
Ingredients with limit values that require monitoring at the workplace: sec-Butyl acetate 950mg/m3

Additional information: The lists valid during the making were used as basis.

8.2 Exposure controls
Personal protective equipment:
General protective and hygienic measures:
Immediately remove all soiled and contaminated clothing
Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.

Respiratory protection:
Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Protection of hands: Protective gloves
The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Material of gloves
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

Penetration time of glove material
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection: Tightly sealed goggles

Body protection:
Complete suit protecting against chemicals. Flame retardant antistatic protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties
Appearance: Colorless liquid
Odour: Pleasant fruity odour
Odour threshold: <200ppm
pH: not determined (does not liberate H ions when dissolved)
Melting point/Melting range: -99°C
Initial Boiling point/Boiling range: 111-112°C
Flash point: 16°C
Evaporation rate: 2.0 (butyl acetate=1)
Flammability (solid, gas): not applicable
Upper/lower flammability or explosive limits: flammable
   Lower: 1.7 vol%
   Upper: 9.8 vol%
Vapour pressure at 20°C: 17 mm Hg
Vapour density: 4 (air = 1) at boiling point
Relative density at 20°C: 0.872
Solubility in / Miscibility with water: 6200mg/ml at 20°C
Partition coefficient (n-octanol/water) at 25°C: 1.72 (calculated)
Auto-ignition temperature: not available
Decomposition temperature: not determined
Viscosity: no data available
Explosive properties: none, structural reasons
Oxidising properties: none, structural reasons
9.2 Other information
   Critical temperature: 571.1K; critical pressure: 3.01 mPa

SECTION 10: Stability and Reactivity

10.1 Reactivity
   No dangerous reactions known.
10.2 Chemical stability
   Under storage at normal ambient temperatures (minus 40°C to +40°C), the product is stable.
   No hazardous reaction when handled and stored according to provisions.
10.3 Possibility of hazardous reactions
   No known hazardous reactions
10.4 Conditions to avoid
   Heat, flames and sparks.
10.5 Incompatible materials: Strong oxidizing agents, Strong bases
10.6 Hazardous decomposition products: carbon oxides

SECTION 11: Toxicological information

11.1 Information on toxicological effects
   Acute toxicity:
      LD₅₀ Oral rat 3200 mg/kg
      LC₀ Inhalation 4h 24000ppm
   Skin corrosion/irritation: no data available
   Serious eye damage/irritation: no data available
   Respiratory or skin sensitization: No sensitizing effects known
   Germ cell mutagenicity: no data available
   Carcinogenicity: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
   Reproductive toxicity: no data available
   STOT-single exposure: Inhalation - May cause respiratory irritation. - Lungs
   STOT-repeated exposure: overexposure may cause irritation of eyes, nose and throat. Severe overexposure may cause weakness, drowsiness, and unconsciousness. Prolonged overexposure may produce irritation of the skin.
   Aspiration hazard: no data available
   Additional information: To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated

SECTION 12: Ecological information

12.1 Toxicity
   Aquatic toxicity:
      No data available
12.2 Persistence and degradability
   Biodegradation: readily biodegradable (structural reasons)
12.3 Bio accumulative potential: not expected to bioaccumulate.
12.4 Mobility in soil: No data available
12.5 Results of PBT and vPvB assessment: PBT/vPvB assessment not available as chemical safety assessment not conducted
12.6 Other adverse effects: No further relevant information available

SECTION 13: Disposal considerations

13.1 Waste treatment methods: Product:
Contact a licensed professional waste disposal service to dispose of this material. Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. Offer surplus and non-recyclable solutions to a licensed disposal company.
Contaminated packaging: Disposal must be made according to official regulations.
Recommended cleansing agents: Water, if necessary together with cleansing agents.

SECTION 14: Transport information

Land Transport (ADR/RID)  Marine Transport (IMDG)  Air Transport (ICAO/ IATA)
14.1 UN/ID Number: 1123
14.2 UN proper shipping name: 1123 sec-Butyl acetate
14.3 Transport hazard class: 3
14.4 Packaging group: II
14.5 Environmental hazards: Not a marine pollutant
14.6 Special precautions for the user: flammable
  Danger code (Kemler): 30
  Tunnel restriction code: D/E
  EMS Number: F-E,S-D
14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code: no data available

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture: This safety datasheet complies with the requirements of COMMISSION REGULATION (EU) No 453/2010 of 20 May 2010 amending Regulation (EC) No 1907/2006

Hazard pictograms: Please refer section 2
Signal word: Warning
Labeling according to EU guidelines:
Code letter and hazard designation of product: Please refer section 2
Risk phrases: Please refer section 2
15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out and will be applicable at the time of REACH Registration.
Substances of very high concern (SVHC) according to REACH, Article 57: The substance is not listed as SVHC.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
